

## SHE OF THE PIECE

*She stands contained in the soul-making vessel of consciousness, but she has the strength*

*to enlarge the container at any time. She is Nature's creature ~ her horns the symbol of that connection and of her power.*

*They serve as antennae with which she, light-fingered, receives news from the Universe.*

*She stands on the rock of her island and is surrounded by bare bones of wood washed up on its shores. She is in command of herself and her powers and reminds us to have the courage to be so ourselves.*
