

## WILL THERE BE A PLACE FOR ME?

*The Goddess of Cycles is reborn as Virgin. She is growth, anticipation, and youthfulness about to spring from between the young horns of Nature itself, bringing her fruitfulness, a body filled with flowers, out into the world.*

*Has our consciousness made a place of welcome for her?*

*She brings with her creative possibility and the answers to how to live in a meaningful relationship to Nature.*

*She can teach us if we will ask the right questions and listen.*

*Will there be a place for her?*
